

GUHAN A

Full Stack Developer | Generative AI Developer | Software Engineer

+91 91504 52186 | a.guhan786@gmail.com | linkedin.com/in/guhan2004 | github.com/Guhan12311

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Generative AI enthusiast with hands-on experience building scalable web applications using React.js, Django, FastAPI, MongoDB, and REST APIs. Skilled in integrating Large Language Models (LLMs), Prompt Engineering, Agentic AI workflows, and RAG pipelines using LangChain, OpenAI API, and Gemini API. Proficient with Git, GitHub, Docker, and CI/CD practices. Passionate about delivering production-quality AI-powered solutions that improve user productivity and solve real-world problems. Currently pursuing B.Tech in Information Technology (CGPA: 8.1/10).

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), TypeScript
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design, UI/UX
Backend: Django, FastAPI, Node.js, REST APIs, MongoDB (NoSQL), PostgreSQL
AI & GenAI Tools: LangChain, OpenAI API, Gemini API, HuggingFace, Pinecone, ChromaDB, RAG Pipelines, Agentic AI, Prompt Engineering, LLM Integration
DevOps & Tools: Git, GitHub, Docker, CI/CD, AWS (EC2, S3), Postman, VS Code, Jupyter Notebook
Core CS: Data Structures & Algorithms, API Integration, Problem Solving, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern (Paid) Z12WEB3	2025 – 2026 Remote
- Architected and deployed a full-stack E-Commerce platform for farm-based milk products using React.js, Django, and MongoDB, enabling 150+ rural dairy farmers to expand digital sales reach. - Engineered 8+ reusable React.js UI components with Tailwind CSS, improving page load speed by ~35% through code splitting and lazy loading. - Built and integrated 5 RESTful APIs using Django REST Framework, handling authentication, product listings, and order management with 99.5% uptime. - Optimized MongoDB queries and indexing strategies, reducing average API response time from ~400ms to ~160ms — a 60% performance improvement. - Implemented Git-based version control workflows and CI/CD practices via GitHub Actions, reducing deployment errors by 40% across sprint cycles.	
Web Development Intern CodeBind Technologies	Jul 2025 Remote
- Developed and shipped 3 production-ready web modules using HTML5, CSS3, JavaScript, and React.js, delivering features ahead of deadline by 15%. - Refactored legacy front-end codebase, improving Lighthouse performance score from 61 to 84 and reducing bundle size by ~28%. - Integrated third-party REST APIs for live data rendering, cutting manual data entry effort by 45% for the client team. - Collaborated within an Agile/Scrum team of 6 developers, participating in daily standups and bi-weekly sprint reviews using GitHub for source control.	

PROJECTS

CareerAgent AI — Agentic AI Job Application Assistant	Jan 2025 – Apr 2025
<i>Tech Stack:</i> React.js, FastAPI, MongoDB, LangChain, Gemini API, OpenAI API, Prompt Engineering, RAG, Agentic AI, Docker	
<i>GitHub:</i> github.com/Guhan12311/CareerAgent-AI	
- Designed and deployed a production-grade Agentic AI platform that automates the full job application lifecycle — resume ATS scoring, AI-generated cover letters, HR email drafting, intelligent job matching, and mock interview preparation with real-time feedback. - Implemented multi-step Agentic AI reasoning workflows using LangChain and Gemini API, enabling autonomous task execution across 6 career assistance modules and reducing manual job-search effort by ~60%. - Integrated RAG pipeline using ChromaDB as a vector store, improving AI response relevance by 45% compared to baseline prompt-only queries. - Engineered FastAPI backend with async REST APIs and MongoDB Atlas, supporting 200+ concurrent user sessions with sub-300ms average latency. - Containerized the full stack using Docker and deployed with CI/CD pipeline, achieving zero-downtime deployments across 4 release cycles.	

ChatBot — MyAI (NLP Chatbot)

Oct 2024 – Dec 2024

Tech Stack: Python, Django, NLP, OpenAI API, HuggingFace, REST APIs, MongoDB

GitHub: github.com/Guhan12311/MyAI-Chatbot

- Built a context-aware AI chatbot integrating HuggingFace transformer models and OpenAI API, achieving 87% response accuracy on a 500-query evaluation benchmark.
- Designed RESTful API endpoints with Django for real-time message handling, supporting 100+ concurrent chat sessions with average response latency under 400ms.
- Applied iterative Prompt Engineering techniques to fine-tune model responses, improving user satisfaction scores by ~30% across test user sessions.

Rubik's Cube Solver

Aug 2024 – Sep 2024

Tech Stack: React.js, JavaScript, Algorithm Design, State Management

GitHub: github.com/Guhan12311/RubiksCube-Solver

- Developed an interactive browser-based Rubik's Cube solver in React.js implementing the Kociemba two-phase algorithm, solving random states in under 25 moves.
- Optimized React state management using useReducer and memoization, reducing unnecessary re-renders by 40% and achieving smooth 60fps animations.

Weather App — Klimate

Jun 2024 – Jul 2024

Tech Stack: React.js, JavaScript, OpenWeather REST API, CSS3

GitHub: github.com/Guhan12311/Klimate-WeatherApp

- Built a real-time weather forecasting PWA in React.js consuming OpenWeather REST API, delivering 5-day forecasts and geolocation-based weather with sub-500ms API response handling.
- Implemented API error handling, loading states, and animated UI transitions, achieving a 92 Lighthouse performance score on mobile.

QR Scanner & Generator

Apr 2024 – May 2024

Tech Stack: JavaScript, Bootstrap, QR Libraries

GitHub: github.com/Guhan12311/QR-Scanner-Generator

- Developed a fully responsive QR code scanner and generator supporting 10+ QR data types, achieving cross-browser compatibility on Chrome, Firefox, and Safari.
- Optimized scan recognition speed by 35% through debounced camera frame processing, reducing battery usage on mobile devices.

EDUCATION

Bachelor of Technology — Information Technology

2022 – 2026

Dhanalakshmi Srinivasan Engineering College, Perambalur | CGPA: 8.1 / 10

CERTIFICATIONS

Python, Django, MongoDB, UI/UX — Coursera (May 2025)

HTML, CSS, JavaScript, Bootstrap — GIVI (April 2024)
